

## ROCKY FLATS ENVIRONMENTAL TECHNOLOGY SITE REGULATORY CONTACT RECORD

---

**Date/Time:** May 29, 2000

**Site Contact(s):** Randy Leitner  
**Phone:** 3537

**Regulatory Contact:** Chris Gilbreath  
**Phone:** 303-692-3371

**Agency:** CDPHE

---

**Purpose of Contact:** To discuss IWCP for removal of interior walls in Building 770

---

**Discussion** I contacted Chris to discuss an Integrated Work Control Package (IWCP) for the removal of some interior walls within Building 770. The activity is being planned in order to increase useable storage space in the former pipe shop, Building 770. I contacted Chris to ensure that he was aware of the planned activity since it involved removal of the interior walls and since the Building 770 Reconnaissance Level Characterization Report has not yet been completed. I also informed Chris that the IWCP includes requirements for conducting a radiological survey and asbestos evaluation prior to removal activities for worker protection and waste characterization purposes.

The IWCP is available for review and discussion at the request of CDPHE. The B771 Project will assume that, unless CDPHE raises concerns based on their review of the IWCP, the Project may proceed with activities described in the IWCP as scheduled. Activities associated with this IWCP are expected to commence in July, 2000.
